

Public record pursuant to s39(1) of the *Environmental Protection Act 1986*

Proposal Title: AME Marine Support Base Dredge and Reclamation

Proposal Location: Australian Marine Complex at Henderson

Case Number: CMS 17250

Date referral received: 23/11/2017

Date more information received: 23/01/2018

Referrer: Mr Saul Wende, AME Pty Ltd

Proponent: AME Pty Ltd

Potential significant effects:

There are potential impacts from dredging and reclamation to marine environmental quality from increased turbidity, and potential mobilisation of contaminants from sediments.

Public comment on referral information:

Do not assess:	0
Assess: a) Referral information	2
b) Environmental review - no public review	0
c) Public environmental review	0

Total submissions: 0

Decision: s. 39A – Not Assess

Referral Examined, preliminary investigations and inquiries conducted. Proposal not to be assessed under Part IV of the EP Act – No advice given.

Explanation of decision:

The EPA considers that the likely environmental effects of the proposal are not so significant as to warrant formal assessment because the proposal activities are temporary, the area is small in scale and located within the existing operating Northern Harbour which is highly modified. The EPA is of the view that the potential impacts of the proposal can be adequately managed through the implementation of the proposal in accordance with the proponent's referral documentation, which included a Dredge Management Plan that sets out monitoring and contingency measures.

Appeals: This decision is appealable. Appeals close 19-02-2018. Appeals are administered by the Office of the Appeals Convenor.

Dr Tom Hatton

CHAIRMAN

Delegate of the Environmental Protection Authority
