**STATEMENT THAT A PROPOSAL MAY BE IMPLEMENTED
(PURSUANT TO THE PROVISIONS OF THE
ENVIRONMENTAL PROTECTION ACT 1986)**

OREBODY 18 IRON ORE MINE, ML 244SA
32 KM EAST OF NEWMAN
SHIRE OF EAST PILBARA (978)

BHP IRON ORE PTY LTD

This proposal may be implemented subject to the following conditions:

1 Proponent Commitments

The proponent has made a number of environmental management commitments in order to protect the environment.

- 1-1 In implementing the proposal, the proponent shall fulfil the commitments made in the Consultative Environmental Review and in response to issues raised following public submissions; provided that the commitments are not inconsistent with the conditions or procedures contained in this statement. In the event of any inconsistency, the conditions and procedures shall prevail to the extent of the inconsistency.

A copy of the environmental management commitments (December 1996) is attached.

2 Implementation

Changes to the proposal which are not substantial may be carried out with the approval of the Minister for the Environment.

- 2-1 Subject to these conditions, the manner of detailed implementation of the proposal shall conform in substance with that set out in any designs, specifications, plans or other technical material submitted by the proponent to the Environmental Protection Authority with the proposal.

Published on

- 6 FEB 1997

- 2-2 Where, in the course of the detailed implementation referred to in condition 2-1, the proponent seeks to change the designs, specifications, plans or other technical material submitted to the Environmental Protection Authority in any way that the Minister for the Environment determines, on the advice of the Environmental Protection Authority, is not substantial, those changes may be effected.

3 Proponent

These conditions legally apply to the nominated proponent.

- 3-1 No transfer of ownership, control or management of the project which would give rise to a need for the replacement of the proponent shall take place until the Minister for the Environment has advised the proponent that approval has been given for the nomination of a replacement proponent. Any request for the exercise of that power of the Minister shall be accompanied by a copy of this statement endorsed with an undertaking by the proposed replacement proponent to carry out the project in accordance with the conditions and procedures set out in the statement.

4 Environmental Management

- 4-1 The proponent shall exercise all care and due diligence in managing the proposal to ensure the protection of the environment.
- 4-2 The proponent shall prepare and implement an environmental management plan and environmental management procedures in order to implement the proposal and shall manage the relevant environmental factors to ensure that the environmental objectives (Section 3, Environmental Protection Authority Bulletin 840) are met.
- 4-3 The plan referred to in condition 4-2 shall adopt quality assurance principles (such as those adopted in Australian Standards ISO 9000 series) and environmental management principles (such as those adopted in the voluntary Australian Standards ISO 14000 [draft] series), with appropriate monitoring, auditing and reporting to ensure compliance with these conditions and the on-going protection of the environment.
- 4-4 If, through the implementation of the environmental management procedures referred to in condition 4-2, the proponent identifies a relevant environmental factor not reported on in Environmental Protection Authority Bulletin 840, the proponent shall immediately report to the Minister for the Environment on that factor, providing a proposed objective and the suggested means for managing the factor to achieve the objective.

5 Decommissioning

- 5-1 The proponent shall achieve the satisfactory decommissioning of the project, removal of plant and installations and rehabilitation of the site and its environs.
- 5-2 To achieve the objective of condition 5-1, within five years following commissioning, or at such later time considered appropriate by the Minister for the Environment on advice of the Department of Environmental Protection, the proponent shall prepare a plan which:
- 1 describes the process for the decommissioning and rehabilitation of the project area;
 - 2 provides for the long term management of water quality; and

3 provides for the development of a 'walk away' solution for the decommissioned mine pits, overburden storage areas, the ore processing facilities and associated infrastructure including the rail spur,

to the requirements of the Environmental Protection Authority on advice of the Department of Environmental Protection, the Department of Resources Development, the Department of Minerals and Energy and the Water and Rivers Commission.

Note: A 'walk away' solution means that the site shall either no longer require management at the time the proponent ceases operations, or if further management is deemed necessary, the proponent shall make adequate provision so that the required management is undertaken with no liability to the State.

- 5-3 The proponent shall implement the plan required by condition 5-2.

6 Time Limit on Approval

The environmental approval for the proposal is limited.

- 6-1 If the proponent has not substantially commenced the project within five years of the date of this statement, then the approval to implement the proposal as granted in this statement shall lapse and be void. The Minister for the Environment shall determine any question as to whether the project has been substantially commenced.

Any application to extend the period of five years referred to in this condition shall be made before the expiration of that period to the Minister for the Environment.

Where the proponent demonstrates to the requirements of the Minister for the Environment on advice of the Department of Environmental Protection that the environmental parameters of the proposal have not changed significantly, then the Minister may grant an extension not exceeding five years.

7 Compliance Auditing

To help determine environmental performance and compliance with the conditions, periodic reports on the implementation of the proposal are required.

- 7-1 The proponent shall submit periodic Performance and Compliance Reports, in accordance with an audit programme prepared by the Department of Environmental Protection in consultation with the proponent.

Procedure

- 1 Unless otherwise specified, the Department of Environmental Protection is responsible for assessing compliance with the conditions contained in this statement and for issuing formal clearance of conditions.
- 2 Where compliance with any condition is in dispute, the matter will be determined by the Minister for the Environment.

Note

- 1 The proponent is required to apply for a Works Approval and Licence for this project under the provisions of Part V of the Environmental Protection Act.
- 2 The Environmental Protection Authority reported on the proposal in Bulletin 840 (December 1996).

- 2 The EMP will be developed in accordance with statutory conditions applied to the approved operations.

General Manager Strategic Development
BHP Iron Ore Pty Ltd

PERTH WA 6850

Dear Mr Brown

**OREBODY 18 IRON ORE MINE, ML244SA 32 KM EAST OF
NEWMAN (STATEMENT 439)**

I refer to your letter of 9 October 1997 to the Department of Environmental Protection, in which you described BHP Iron Ore's proposal to make some changes to the approved Orebody 18 project.

The Environmental Protection Authority has provided advice to me regarding the environmental significance of changes to the project that include an increased pit area, an increased waste dump footprint and an increased water extraction rate.

I consider the proposed changes to the project to be not substantial. Accordingly, under Condition 2-2 of the statement of environmental approval of 6 February 1997:

- I advise that the proposed changes, as described in correspondence of 9 October 1997, may be implemented as part of the Orebody 18 project.

Please note that the above information refers to environmental issues in the Statement of 6 February 1997. This does not remove the necessity to obtain any approvals which may be required by other agencies.

Yours sincerely

CHERYL EDWARDES (Mrs) MLA
MINISTER FOR THE ENVIRONMENT
