- 10-1 To offset the impact of mining at the Windarling Range W1 deposit on the landscape and geological features of the range and local area and related conservation values, within 12 months following the purchase of the former Ennuin Pastoral Lease by Parks and Wildlife, the proponent shall make a financial contribution of \$50,000 AUD per year over a 5-year period (total

\$250,000 AUD) to Parks and Wildlife, to assist with the management of the former Ennuin Pastoral Lease.

- 10-2 To offset the impact of mining at the Windarling Range W4 East deposit on the Rare Flora species *Ricinocarpos brevis*, the proponent shall provide a minimum financial contribution of \$640,000 AUD over a five year period for the purpose of undertaking works that seek to contribute to the scientific understanding of the long term recovery and protection of sustainable populations of *Ricinocarpos brevis* at the Windarling Range. The works will commence within 12 months following impact to *Ricinocarpos brevis* at the Windarling Range W4 East Deposit. The works will be implemented in consultation with Parks and Wildlife and to the satisfaction of the CEO.
- 10-3 To offset the impact of mining at the Windarling Range W4 East deposit on the Rare Flora species *Ricinocarpos brevis*, the proponent will provide a minimum financial contribution of \$40,000 AUD for the translocation of a proportion of individuals of *Ricinocarpos brevis* that will be removed by mining of the Windarling Range W4 East Deposit. A translocation plan shall be developed and implemented by the proponent in consultation with Parks and Wildlife, and to the satisfaction of the CEO.

11 Mine Closure and Rehabilitation

- 11-1 The proponent shall ensure that the mining operations are closed, decommissioned and rehabilitated in an ecologically sustainable manner, consistent with agreed post-mining outcomes and land uses, without unacceptable liability to the State of Western Australia through implementation of a Mine Closure Plan required by condition 11-2.
- 11-2 Within 12 months of the date of this Statement, or as otherwise agreed by the CEO, the proponent shall submit a Mine Closure Plan for the Yilgarn Operations to the requirements of the CEO, in consultation with Parks and Wildlife and the DMP. The Mine Closure Plan shall:

 - (2) detail the methods to be used for progressive rehabilitation of disturbed areas with vegetation composed of native species of local provenance such that the percentage cover of living vegetation is comparable to natural vegetation surrounding the proposal;
 - (3) detail the methods, including monitoring and recording programs for feral animal populations and the health and condition of conservation significant flora and vegetation, and conservation significant fauna species, including Malleefowl (*Leipoa ocellata*), which will be used to ensure that surface water within pit lakes does not result in an increase in introduced fauna to a level that may have a measurable impact on conservation significant flora and vegetation or conservation significant fauna species;

- (4) detail the methods to ensure the effectiveness of backfilling in preventing the presence of permanent surface water in those pits approved for backfilling, following the completion of backfilling, unless otherwise approved by the CEO, in consultation with Parks and Wildlife; and
 - (5) examine opportunities for backfilling the Windarling W3/5 pit voids above the watertable, to ensure that impacts on important conservation values and any long term liabilities for future management are minimised.
- 11-3 The proponent shall implement the approved Mine Closure Plan required by condition 11-2 and continue implementation until otherwise agreed by the CEO, on the advice of Parks and Wildlife and the DMP.
- 11-4 Revisions to the Mine Closure Plan may be approved by the CEO on the advice of Parks and Wildlife and the DMP.
