Email:

██

### 3 Do your views officially represent those of an organisation?

No, these are my personal views

If yes, please specify the name of your organisation.:

### 4 Which of the following best describes the group or person you represent?

Private Citizen

If other, please specify.:

## Comments

### 1 What are the values (environmental, social and cultural) you associate or identify with in and around Exmouth Gulf?

Please provide your comments on what information should be required here.:

Exmouth gulf is a uniquely beautiful area, home to many endangered and unique species which is in need of protection and conservation.

It is my spiritual home, the place I go to, to renew my energy and invigorate my soul. Whilst many has to the "west side", waters, my family and I head to the gulf and enjoy the beautiful waters and islands.

### 2 What activities do you engage with in and around Exmouth Gulf?

Please provide your comments on how emissions should be considered here.:

My family and I swim, dive, snorkel, go boating, whale watching, squidding, fishing, exploring, kayaking, and I enjoy photography. Enjoying Exmouth Gulf is why I live in Exmouth.

### 3 What environmental pressures do you observe in and around Exmouth Gulf?

Please provide your comments here.:

Heavy industry, large vessels, pollution, plastics and micro plastic entering our waterways, and over fishing all threaten this delicate, unique and beautiful environment.

In particular: sub sea 7 and Gascon Gateway Limited's deep water port developments add an unacceptable level of pressure on the Exmouth Gulf.

### 4 What environmental pressures in and around Exmouth Gulf affect you/your sector or business?

Label:

I actively disagree with anything that adds pressure to the delicate Exmouth Gulf environment.

This has caused a terrible divide within the small community of Exmouth. Everyone wants to conserve our beautiful environment including the Exmouth Gulf however some feel their economic / financial security is dependant on allowing industrial development in Exmouth Gulf.

THIS DIVISION HAS CAUSED ME TO BE EXCLUDED FROM MY SOCIAL GROUP, not my business, but a very important part of my life.

The environmental pressures already facing Exmouth Gulf include global warming, habitat destruction from trawellers and large vessels and cyclones. The Gulf can not face any more pressure from proposed industrial developments.

**5 Are there other activities that are proposed (or likely to be proposed) that you are aware of, which will impact the Exmouth Gulf?**

**Label:**

Sub sea 7's pipeline fabrication proposal  
Gascoyne Gateway Limited's deep water port proposal  
K&S salt mining

**6 Is there any other information you would like to provide?**

**Please provide your comments here.:**

Exmouth Gulf is a beautiful, unique and amazing area, and is vitally important to the people of Exmouth, WA and the world. It is currently healthy and home to vast amounts of marine life, birds and amazing flora.

For the sake of our grand children and humanity it NEEDS TO BE KEPT THAT WAY.
