Comments

1 What are the values (environmental, social and cultural) you associate or identify with in and around Exmouth Gulf?

Please provide your comments on what information should be required here.:

Its a great place to see an environment where there is a diverse range of marine life.

2 What activities do you engage with in and around Exmouth Gulf?

Please provide your comments on how emissions should be considered here.:

Exmouth Gulf is a great place to fish, snorkel. Its a great place to see a environment where there is a diverse range of marine life. We camp on the beaches and play with our kids in the water, beaches and the boat

3 What environmental pressures do you observe in and around Exmouth Gulf?

Please provide your comments here.:

Over fishing, to many people being disrespectful to both the water and the land. Trampling on Coral and sand dunes. This is quite localised to tourists.

4 What environmental pressures in and around Exmouth Gulf affect you/your sector or business?

Label:

Fish stocks are low and are hard to come by. marine life disappearing.

5 Are there other activities that are proposed (or likely to be proposed) that you are aware of, which will impact the Exmouth Gulf?

Label:

With the Sub sea project and the Gascoyne gateway project proposed, i think this will have a major impact.

Sub sea will be minimal, but the Dredging and the dune degradation with the Gascoyne Gateway project, will be detrimental to the Gulf.

6 Is there any other information you would like to provide?

Please provide your comments here.:

I think Exmouth needs another industry like subsea 7, but i think it would be no good for the region.

Gascoyne Gateway will destroy the gulf and fish life with the dredging alone.
