### Comments

#### 1 What are the values (environmental, social and cultural) you associate or identify with in and around Exmouth Gulf?

Please provide your comments on what information should be required here.:

I associate environmental values with Exmouth Gulf and the surrounding areas.

#### 2 What activities do you engage with in and around Exmouth Gulf?

Please provide your comments on how emissions should be considered here.:

I have engaged in swimming, snorkelling and walks.

#### 3 What environmental pressures do you observe in and around Exmouth Gulf?

Please provide your comments here.:

I have observed the proposal of a gas and oil pipe from Subsea 7 and now a 'Green' major deepwater port is being proposed by Gascoyne Gateway. The fact that they are trying to mask their proposal as green is a complete offense when it will damage the sea beds. This area is a fragile environment that will be affected by the dredging that will take place. Once we open the gateway to this port it invites all large vessels to pollute this area and it won't stop there. This will be the beginning of the end for all the eco tourism in this area.

#### 4 What environmental pressures in and around Exmouth Gulf affect you/your sector or business?

Label:

I don't live in the Exmouth area but have come here on holiday and plan on continuing to do so in the future. The marine environment is like no other and needs to continue to be protected.

#### 5 Are there other activities that are proposed (or likely to be proposed) that you are aware of, which will impact the Exmouth Gulf?

Label:

I'm sure there will be more in the future after these. Something needs to be done to protect these places permanently.

#### 6 Is there any other information you would like to provide?

Please provide your comments here.:

EPA, please don't let this go through. I am asking for a thorough investigation of the impacts that this port will lead to.
