development proposals**

Title:	Boonanarring Mineral Sand Mine approximately 15 km north of Gingin			Determination: Assess: Public Environmental Review PER Public Review Period: 5 weeks Assessment No: 1947 Procedure: EPA-prepared Environmental Scoping Document Chairman's Initials:  Date Signed: 7.11.12	
Referral ID:	A559256	Date Received:	19/10/2012		
Referror:	Image Resources NL				
Proponent:	Image Resources NL				
Contact:	Mr P Davies				
Telephone:	9485 2410				
LGA:					
Environmental Factors:	Flora and vegetation; fauna and habitat; groundwater; surface water; air quality; noise; light.				
Potential Significant Impacts:	Draw down impacts on the adjacent nature reserve. Potential for noise, dust and light to impact on nearby residents. Potential to impact conservation category wetland.				
Public comments on referral information:	Not Assess Assess (no public review) Assess (with public review) 4 TOTAL COMMENTS 4				
Explanation of Decision:	Given the location of the pit to the nature reserve, the proponent will need to provide evidence that it can manage groundwater draw down under the reserve. Noise, dust and light impacts can potentially be managed and will need to gain an understanding of the impacts to the conservation category wetland.
