

Public record pursuant to s39(1) of the *Environmental Protection Act 1986*

Proposal Title: PEG Power Station

Proposal Location: Solomon iron Ore Mine, approximately 60km north of Tom Price, Shire of Ashburton.

Case Number: CMS 17775

Date referral received: 22-05-2020

Date more information received: n/a

Referrer & Proponent: Pilbara Energy (Generation) Pty Ltd

Potential significant effects:

There are potential impacts from the emission from the power station including greenhouse gases and other air emissions.

Preliminary key environmental factors: Air Quality, Greenhouse Gas Emissions.

Public comment on referral information:

Do not assess:	0
Assess: a) Referral information	0
b) Environmental review - no public review	0
c) Public environmental review	1

Total submissions: 1

Decision: s. 39A – Assess

Level of assessment: Referral Information with additional information required under section 40(2)(a) of the *Environmental Protection Act 1986*.

Additional information is required for the EPA's assessment of Greenhouse Gas Emissions and this information will be published in the EPA's website.

Explanation of decision:

The proposal raises one preliminary key environmental factor. The proponent has generally provided adequate referral information about the proposal, potential impacts, and proposed management measures to enable the EPA to undertake its assessment, however, additional information is required relating to Greenhouse Gas Emissions.

Appeals: Decision not appealable.
