

Public record pursuant to s39(1) of the *Environmental Protection Act 1986*

Proposal Title: Sodium Cyanide Plants (Liquid and Solid) at Kwinana and Transport of Sodium Cyanide by Road and Rail

Proposal Location: Part Lot 20 on Diagram 78086 Kwinana Beach Road, Kwinana Beach

Case Number: CMS 17927

Date referral received: 2/12/2020

Date more information received: 22/3/2021

Referrer: Australian Gold Reagents Pty Ltd **Proponent:** Australian Gold Reagents Pty Ltd

Potential significant effects:

There are potential impacts on: **Air Quality** from the air emissions generated from the operation of the proposal and **Greenhouse Gas Emissions** from the generation of greenhouse gases.

Preliminary key environmental factors: Air Quality

Public comment on referral information:

Do not assess:	0
Assess: a) Referral information	0
b) Environmental review - no public review	0
c) Public environmental review	0
Total submissions:	0

Decision: s. 39A – Assess

Level of assessment:

Referral Information with additional information required under section 40(2)(a) of the *Environmental Protection Act 1986*

Explanation of decision:

Assessment is required to determine how the environmental impacts from the implementation of the proposal would be managed. The EPA considers that the proponent has provided sufficient information to undertake the assessment on Referral Information with additional information, but has requested some further information to confirm the air quality impacts. The EPA has requested further information on Greenhouse Gas Emissions

Appeals: Decision not appealable.

Professor Matthew Tonts
