

Public record pursuant to s. 39 of the *Environmental Protection Act 1986*

Proposal title: FutureEnergy Australia Renewable Fuel Biorefinery

Proposal location: Narrogin, Western Australia

CMS number: APP – 0000191

Date referral received: 16/01/2023

Date more information received: N/A

Referrer: FutureEnergy Australia Pty Ltd

Proponent: FutureEnergy Australia Pty Ltd

Potential significant effects:

There are potential impacts on: Air Quality from pollutants and particulate matters emissions into air; Social Surroundings from construction and operational noise, dust and odour.

Preliminary key environmental factors: Air Quality and Social Surroundings

Public comment on referral information:

Do not assess:	0
Assess: a) Referral information	0
b) Environmental review - no public review	1
c) Public environmental review	1
<i>Total submissions:</i>	2

Decision: s. 38G(1) – Assess

Level of assessment:

Referral Information with additional information (required under s. 40(2)(a) of the *Environmental Protection Act (1986)* (4 weeks public review)

Other details

Additional information required includes further information on the production technology, additional noise modelling and additional assessments for air quality and odour to determine potential impacts of odour emissions on sensitive receptors.

Explanation of decision:

Several preliminary key environmental factors require assessment. Detailed assessment is required to determine the extent of the proposal's direct and indirect impacts, and whether the EPA environmental factor objectives can be met.

Appeals: Decision is not appealable.
