

WESTERN AUSTRALIA  
MINISTER FOR THE ENVIRONMENT

**STATEMENT THAT A PROPOSAL MAY BE IMPLEMENTED  
(PURSUANT TO THE PROVISIONS OF THE ENVIRONMENTAL  
PROTECTION ACT 1986)**

SUBDIVISION OF LOT 44 HAMPTON ROAD, PINJARRA (609)

W & M L BINGHAM

This proposal may be implemented subject to the following conditions:

**1. Detailed implementation**

Subject to these conditions, the manner of detailed implementation of the proposal shall conform in substance with that set out in any designs, specifications, plans or other technical material submitted by the proponent to the Environmental Protection Authority with the proposal. Where, in the course of that detailed implementation, the proponent seeks to change those designs, specifications, plans or other technical material in any way that the Department of Planning and Urban Development determines is not substantial, those changes may be effected.

**2. Planning statement**

To achieve the environmental objectives through the planning process, the proponent shall fulfil the requirements listed in the attached Appendix A to the satisfaction of the State Planning Commission prior to finalisation of the rezoning of the land and/or the endorsement of Diagram of Survey.

**3. Proponent**

No transfer of ownership, control or management of the project which would give rise to a need for the replacement of the proponent shall take place until the Minister for the Environment has advised the proponent that approval has been given for the nomination of a replacement proponent. Any request for the exercise of that power of the Minister shall be accompanied by a copy of this statement endorsed with an undertaking by the proposed replacement proponent to carry out the project in accordance with the conditions and procedures set out in the statement.

**4. Time limit on approval**

If the proponent has not substantially commenced the project within five years of the date of this statement, then the approval to implement the proposal as granted in this statement shall lapse and be void. The Minister for the Environment shall determine any question as to whether the project has been substantially commenced. Any application to extend the period of five years referred to in this condition shall be made before the expiration of that period, to the Minister for the Environment by way of a request for a change in the condition under Section 46 of the Environmental Protection Act. (On expiration of the five year period, further consideration of the proposal can only occur following a new referral to the Environmental Protection Authority).

14 APR 1992

**PROCEDURE**

Regardless of responsibility nominated in the above conditions, if there is any question regarding the conditions set under this statement, the matter shall be referred to the Minister for the Environment for determination.

**Bob Pearce, MLA  
MINISTER FOR THE ENVIRONMENT**

**13 APR 1992**

**Note: Advice regarding subsequent planning approval**

This environmental approval under the provisions of the Environmental Protection Act does not imply that planning approval will follow automatically.

**APPENDIX A**  
**Planning statement**

**1. LAND USE**

- 1.1. The proposed lots shall only be used for residential purposes, with no more than one (1) residence on each lot unless it can be demonstrated that an additional residence would not result in any significant additional nutrient application.
- 1.2. Ancillary land uses on the site shall only be approved where they do not involve the clearing of land (other than for building envelopes, fences, firebreaks, access and servicing), and/or any further significant application of nutrients.
- 1.3. Determination as to whether nutrient application is significant (as referred to in 1.1 and 1.2), shall be consistent with guidelines agreed between the Local Government Authority and the Environmental Protection Authority

**2. VEGETATION**

- 2.1. Perennial vegetation shall be retained on all areas of the site that are not required to be cleared for building envelopes, fences, firebreaks, access and servicing.
- 2.2. Perennial, indigenous vegetation shall be established and maintained for the first three years or until the lots are sold, on all areas of the site already cleared and not required to be cleared for building envelopes, fences, firebreaks, access and servicing, in accordance with the guidelines to be provided by the Local Government Authority.
- 2.3. Satisfactory arrangements shall be made with the Local Government Authority to ensure the ongoing maintenance of both existing vegetation and revegetation established by the developer outside the areas cleared for building envelopes, fences, firebreaks, access and servicing.
- 2.4. Retention, management and revegetation of areas (as referred to in 2.1, 2.2 and 2.3) shall be consistent with guidelines agreed between the Local Government Authority and the Environmental Protection Authority.

**3. STOCK**

- 3.1. Livestock are only permitted in accordance with guidelines to be agreed between the Local Government Authority and the Environmental Protection Authority
- 3.2. Where livestock are to be kept on any lot, the landholder shall, prior to the introduction of livestock, fence off existing vegetation and re-vegetated areas so as to protect vegetation from damage by grazing livestock.

**4. DOMESTIC WASTE WATER**

- 4.1. Lots shall be connected to reticulated sewerage if possible.
- 4.2. Unless reticulated sewerage is provided provision shall be included for any residence to have installed a domestic waste water treatment system in accordance with the Health Department of WA requirements. The systems shall have adequate phosphorus retention capacity so that the base of the system or the modified irrigation area is above the highest known water table or are installed in accordance with Health Department guidelines.

**5. LOT SIZES & BUILDING ENVELOPES**

- 5.1 Lot sizes must be no less than 2 000 m<sup>2</sup> and contain an appropriate sized building envelope.

**6. STORMWATER**

- 6.1 A stormwater disposal system shall be designed and constructed for the site in accordance with guidelines to be provided by the Local Government Authority and agreed to by the Environmental Protection Authority.

**7. MANAGEMENT OF PUBLIC OPEN SPACE**

- 7.1 Satisfactory arrangements shall be made with the Local Government Authority with regard to the development and management of any public open space associated with this proposal to ensure that storm water is contained on site, consistent fertilizer usage is minimal and as much of the site as possible is covered with indigenous vegetation.
