To the Office of the Environmental Protection Authority

**Report Disclaimers Attached within this PER Document**

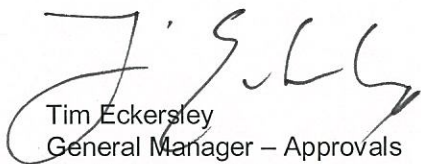

Attached to the Yandicoogina Junction Southeast and Oxbow Public Environmental Review Document (**PER**) are a number of reports (located in the appendices) which were prepared for Hamersley Iron (a subsidiary of Rio Tinto) by a number of external consultants.

In relation to the disclaimers contained within the report appendices, Rio Tinto confirms that it has received permission from the report authors allowing the Environmental Protection Authority to publish the PER publicly on the Environmental Protection Authority's website, and for Rio Tinto to publish on its website and distribute to the public on CD with the hardcopy PER document.

Further, we confirm that Rio Tinto hereby expressly permits the Environmental Protection Authority to publish the PER and the reports in the annexures on its website, and store the data electronically.

Please note that except in the case of the EPA and the PER hardcopies as detailed above, the reports contained within the PER belong to Rio Tinto and may not be reproduced or distributed to any third party without being referenced appropriately to the report authors.

Yours sincerely

Tim Eckersley  
General Manager – Approvals  
Rio Tinto Iron Ore  
*Rio Tinto on behalf of Hamersley Iron*
