

APPENDIX I PRE-MINING DATA COLLECTION SHEET

Date:

Lot Number:

Authorising Officer:

Task	Comments	Compliance Y/N By Who
<p>Gamma Radiation Survey Grid used, Any elevated readings, If $\mu\text{Gy}\cdot\text{h}^{-1}$ greater than 0.22 readings are encountered the area is to be re-surveyed on a tighter grid. Ensure survey data is stored in correct GIS database.</p>		
<p>Topographic Survey Vary grid dependent on relief. All drainage inverts to be traversed.</p>		
<p>Pasture Survey Estimate the percentage and type of weed present. If weed infestation is greater than 5% topsoil is required to be stockpiled separately.</p>		
<p>Topsoil Depth, layering and photo</p>		
<p>Flora Seed collection, Grass skirt transplanting, Timber recovery.</p>		
<p>Fauna Any large trees MUST be surveyed for habitat by a zoologist prior to felling - 5 days notice required. Contact OHS&E Superintendent to inspect tree areas before felling – checking of hollows and signs of fauna.</p>
