

# Table of Contents

1	Overview of the Proposal .....	59
1.1	Proposal Content.....	65
1.2	Purpose and Scope of this Document.....	70
1.3	Proponent.....	70
1.4	Proposal Description .....	71
1.4.1	Bauxite Mining at Huntly Mine and Willowdale Mine.....	71
1.4.2	Mine Planning – Mining and Management Programs .....	71
1.4.3	Regional Exploration .....	71
1.4.4	Bauxite Mining Process.....	73
1.4.5	Mining Avoidance Zones and Limited Disturbance Areas .....	73
1.4.6	Water Supply and Usage .....	75
1.4.7	Supporting Infrastructure and Transport .....	75
1.4.8	Rehabilitation.....	75
1.4.9	Proposal status at EPA’s Decision to Assess .....	75
1.5	Proposal Alternatives .....	76
1.5.1	Justification.....	76
1.5.2	Proposal Alternatives .....	77
1.6	Local and Regional Context .....	79
1.6.1	Huntly Mine Local Context .....	79
1.6.2	Willowdale Mine Local Context .....	79
1.6.3	Exploration Lease Local Context.....	79
1.7	Modifications to the Proposal Since the Third-Party Referrals .....	83
2	Legislative Context .....	89
2.1	Environmental Impact Assessment Process.....	89
2.1.1	State Agreements.....	89
2.1.2	Part IV of the <i>Environmental Protection Act 1986 (WA)</i> .....	92
2.2	Environmental Management Framework .....	98
2.2.1	Mining and Management Programs .....	98
2.2.2	Forest Clearing Advice .....	98
2.2.3	Management Plans.....	98
2.2.4	Rehabilitation Program Establishment .....	100
2.3	Other Approvals and Regulations .....	101
2.3.1	Land Tenure .....	101
2.3.2	Decision-making Authorities.....	101
2.3.3	<i>Rights in Water and Irrigation Act 1914</i> .....	113
3	Stakeholder Engagement.....	114

3.1	Overview.....	114
3.2	Stakeholder Identification and Engagement Process.....	114
3.3	Key Stakeholders .....	117
3.4	Stakeholder Consultation Outcomes.....	117
4	Object and Principles of the EP Act .....	118
4.1	Environmental Principles.....	118
4.2	Key Environmental Factors .....	127
4.3	Impact Assessment Approach.....	131
4.3.1	Mine Disturbance Footprint .....	132
4.3.2	Commitments to Protect Key Environmental Values .....	132
5	Environmental Factors and Objectives.....	136
5.1	Identification of Key Environmental Factors.....	136
5.2	Key Environmental Factor – Flora and Vegetation .....	137
5.2.1	EPA Objective .....	137
5.2.2	Relevant Policy and Guidance .....	137
5.2.3	Receiving Environment .....	140
5.2.4	Receiving Environment – Vegetation .....	158
5.2.5	Receiving Environment – Flora .....	222
5.2.6	Potential Environmental Impacts.....	237
5.2.7	Mitigation .....	253
5.2.8	Assessment and Significance of Residual Impacts.....	268
5.2.9	Environmental Outcomes .....	276
5.3	Key Environmental Factor – Terrestrial Fauna .....	279
5.3.1	EPA Objective .....	279
5.3.2	Relevant Policy and Guidance .....	280
5.3.3	Receiving Environment .....	281
5.3.4	Terrestrial Vertebrate Fauna .....	296
5.3.5	Aquatic Fauna .....	342
5.3.6	Short-range Endemic Invertebrate Fauna.....	346
5.3.7	Potential Environmental Impacts.....	362
5.3.8	Mitigation .....	374
5.3.9	Assessment and Significance of Residual Impact .....	384
5.3.10	Environmental Outcomes .....	397
5.4	Key Environmental Factor – Terrestrial Environmental Quality .....	402
5.4.1	EPA Objective .....	402
5.4.2	Relevant Policy and Guidance .....	402
5.4.3	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	403

5.4.4	Receiving Environment .....	403
5.4.5	Potential Environmental Impacts.....	419
5.4.6	Mitigation .....	426
5.4.7	Assessment of Significant Residual Impact.....	430
5.4.8	Environmental Outcomes.....	430
5.5	Key Environmental Factor – Inland Waters.....	434
5.5.1	EPA Objective .....	434
5.5.2	Relevant Policy and Guidance .....	435
5.5.3	Receiving Environment .....	436
5.5.4	Surface Water Systems.....	440
5.5.5	Groundwater Systems.....	474
5.5.6	Overview of Significant Environmental Values.....	482
5.5.7	Potential Environmental Impacts.....	482
5.5.8	Mitigation .....	509
5.5.9	Assessment and Significance of Residual Impacts.....	527
5.5.10	Environmental Outcomes.....	527
5.6	Key Environmental Factor – Social Surroundings (Heritage) .....	537
5.6.1	EPA Objective .....	537
5.6.2	Relevant Policy and Guidance .....	537
5.6.3	Receiving Environment .....	538
5.6.4	Potential Environmental Impacts.....	567
5.6.5	Mitigation .....	570
5.6.6	Assessment and Significance of Residual Impacts.....	573
5.6.7	Environmental Outcomes.....	573
5.7	Key Environmental Factor – Social Surroundings (Amenity) .....	574
5.7.1	EPA Objective .....	574
5.7.2	Relevant Policy and Guidance .....	575
5.7.3	Receiving Environment .....	575
5.7.4	Potential Environmental Impacts.....	612
5.7.5	Mitigation .....	621
5.7.6	Assessment and Significance of Residual Impact .....	629
5.7.7	Environmental Outcomes.....	629
5.8	Key Environmental Factor – Greenhouse Gas Emissions.....	633
5.8.1	EPA Objective .....	633
5.8.2	Policy and Guidance .....	633
5.8.3	Receiving Environment .....	633
5.8.4	Scope of this Proposal .....	634
5.8.5	Environmental Outcomes.....	641

6	Other Environmental Factors or Matters .....	642
6.1	Other Environmental Factors .....	642
6.2	Rehabilitation Program .....	644
6.2.1	The Mine Rehabilitation Process.....	645
6.2.2	Rehabilitation Completion Criteria.....	649
6.2.3	Rehabilitation Monitoring and Reporting .....	649
6.2.4	Rehabilitation Area Certification .....	650
6.2.5	Rehabilitation Status .....	651
6.2.6	Independent Peer Review of Rehabilitation Methods and Success to Date.....	654
6.3	Rehabilitation Performance .....	656
6.3.1	Flora and Vegetation .....	656
6.3.2	Fauna Recovery .....	665
6.3.3	Post-mining Land Use .....	667
6.4	Ongoing and Future Research .....	673
7	Exploration.....	675
7.1	Overview.....	675
7.1.1	Exploration and Development Drilling .....	676
7.1.2	Supplementary Exploration Drilling .....	676
7.1.3	Groundwater Bore Drilling .....	677
7.2	Receiving Environment .....	679
7.2.1	Flora and Vegetation .....	679
7.2.2	Terrestrial Fauna .....	693
7.2.3	Terrestrial Environmental Quality .....	698
7.2.4	Inland Waters .....	702
7.2.5	Social Surrounds .....	706
7.3	Potential Impacts.....	711
7.4	Mitigation .....	714
7.5	Assessment of Significance of Residual Impacts.....	715
7.6	Environmental Outcomes .....	715
8	Offsets .....	718
8.1	EPA Objective .....	718
8.2	Policy and Guidance .....	718
8.3	Application of Mitigation Hierarchy .....	719
8.4	Significant Residual Impacts .....	719
8.5	Environmental Offset Considerations.....	724
8.6	Offset Strategy.....	724
8.7	Offset Proposal.....	725
8.7.1	Objectives.....	725

8.7.2	Proposed Outcomes.....	726
8.7.3	Proposed Offset Extent .....	726
8.7.4	Description of Actions to be Undertaken.....	732
8.7.5	Description of Offset Areas .....	732
8.7.6	Alignment with the Six Principles Outlined in the WA Environmental Offsets Policy and WA Environmental Offset Guideline .....	732
8.7.7	Alignment with Relevant Plans, Policies, and Recovery Plans.....	736
8.8	Stakeholder Consultation .....	736
8.9	Finalisation and Implementation of Offsets .....	736
9	Holistic Impact Assessment .....	738
9.1	Identified Key Environmental Values.....	738
9.2	Summary of the Potential Effects of the Proposal on the Environment as a Whole .....	744
9.3	Significant Residual Combined Environmental Effects .....	745
9.4	Consistency with EP Act Principles and EPA Objectives for Key Environmental Factors.....	745
10	Cumulative Environmental Impact Assessment.....	747
10.1	EPA Definition of Cumulative Environmental Impacts .....	747
10.2	Proposal Considered for Cumulative Impacts.....	747
10.3	Flora and Vegetation Cumulative Impacts .....	747
10.3.1	Overview.....	747
10.3.2	Pastoral and Agricultural Operations.....	750
10.3.3	Timber Harvesting .....	750
10.3.4	Fire .....	751
10.3.5	Mining and Rehabilitation .....	751
10.3.6	Disease and Weed Invasion.....	751
10.3.7	Climate Change.....	752
10.3.8	Impacts to Biodiversity .....	752
10.3.9	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	756
10.4	Terrestrial Fauna Cumulative Impacts .....	757
10.4.1	Past and Present Activities.....	757
10.4.2	Reasonably Foreseeable Future Activities.....	758
10.4.3	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	759
10.5	Terrestrial Environmental Quality Cumulative Impacts .....	762
10.5.1	Past and Present Activities.....	762
10.5.2	Reasonably Foreseeable Future Activities.....	763
10.5.3	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	764

10.6	Inland Waters Cumulative Impacts.....	764
10.6.1	Past and Present Activities.....	765
10.6.2	Reasonably Foreseeable Future Activities.....	769
10.6.3	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	770
10.7	Social Surroundings (Heritage) Cumulative Impacts .....	772
10.7.1	Land Clearing .....	772
10.7.2	Waterways.....	773
10.7.3	Land Access .....	773
10.7.4	Aboriginal Heritage Places .....	773
10.7.5	Minimising Cultural Heritage Impacts.....	774
10.7.6	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	774
10.8	Social Surroundings (Amenity) Cumulative Impacts.....	774
10.8.1	Visual and Social Amenity.....	775
10.8.2	Noise, Dust, and Light Emissions.....	776
10.8.3	Knowledge and survey gaps addressed in Pinjarra Alumina Refinery Revised Proposal (Assessment 2253) .....	777
10.9	Greenhouse Gas Emissions Cumulative Impacts.....	779
11	Additional Information.....	780
11.1	References .....	780
11.2	Appendices.....	818

## Table Index

Table 1-1:	General proposal content description (Huntly and Willowdale Mines – Mining and Management Program 2022–2026 and 2023–2027 (Third Party Referral) .....	66
Table 1-2:	Proposal content elements (Huntly and Willowdale Mines – Bauxite mining on the Darling Range 2023 to 2027 (third party referral)* .....	66
Table 1-3:	Proponent Information.....	70
Table 1-4:	Proponent Contact Details .....	71
Table 1-5:	Mining Avoidance Zones and Limited Disturbance Areas .....	73
Table 1-6:	s43A Amendments .....	84
Table 2-1:	Current State Agreement administrative framework .....	90
Table 2-2:	Part IV Environmental Protection Act 1986 (WA) Ministerial Statements .....	93
Table 2-3:	History of Ministerial Statements at Wagerup Refinery.....	95
Table 2-4:	Decision making authorities and processes.....	103
Table 2-5:	Other statutory decision-making process which can mitigate potential impacts on the environment.....	105
Table 3-1:	Stakeholders.....	117

Table 4-1:	Principles of the Western Australian Environmental Protection Act 1986.....	119
Table 4-2:	Key Environmental Factors .....	128
Table 5-1:	Key Environmental Factors Relevant to the Proposal.....	136
Table 5-2:	Baseline and other Flora and Vegetation Studies Relevant to the Proposal .....	145
Table 5-3:	Targeted flora and vegetation studies and research relevant to the Proposal (Appendix 15 to Appendix 22 inclusive) .....	157
Table 5-4:	Pre-European vegetation associations.....	161
Table 5-5:	Vegetation Complexes of the Southwest Forests .....	164
Table 5-6:	Vegetation Types Recorded Within the Mine DEs .....	169
Table 5-7:	Groundwater Dependent Ecosystems Present within the Mine DEs.....	181
Table 5-8:	Forest Age Across the Mapped Portion of the NJF and within the Mine DEs.....	192
Table 5-9:	Decade of Last Harvest Across the Mapped Portion NJF and within the Mine DEs .....	192
Table 5-10:	Frequency of Forest Harvesting within Mapped Portion of NJF and within the Mine DEs .....	193
Table 5-11:	Protected and Conservation Areas within the Mine DEs .....	197
Table 5-12:	Summary of Phytophthora dieback Occurrence Assessment in the Mine DEs .....	208
Table 5-13:	Phytophthora dieback Vulnerability of Uninfested Vegetation within the Mine DEs.....	209
Table 5-14:	Vulnerability of Vegetation Complexes within the Mine DEs to Reasonably Foreseeable Threats .....	217
Table 5-15:	Summary of likelihood of occurrence of conservation significant flora .....	223
Table 5-16:	Conservation significant flora species recorded in or within the vicinity of the Mine DEs 2020–2024 .....	227
Table 5-17:	Weeds of National Significance and Declared Pest Plants recorded in the vicinity of the Mine DEs 2020–2024 .....	235
Table 5-18:	Estimates of Direct Impacts to Regional Vegetation – Pre-European Vegetation Associations and Vegetation Complexes .....	240
Table 5-19:	Estimates of Direct Impacts to Local Vegetation – Vegetation Types, Potential PECs and potential GDEs .....	242
Table 5-20:	Potential Direct Impacts to potential Threatened and Priority Ecological Communities.....	244
Table 5-21:	Estimates of Direct Impacts to Conservation Significant Flora Recorded in the Mine DEs 2020–2024 and their Habitats .....	247
Table 5-22:	Key Values Currently Protected through Mining Avoidance Zones and Limited Disturbance Areas .....	255
Table 5-23:	Avoidance, minimisation, and rehabilitation of potential impacts to flora and vegetation .....	260
Table 5-24:	Significance of Impacts to Conservation Significant Flora Species .....	271
Table 5-25:	Preliminary Offset Triggers – Residual Impact Significance Model .....	275
Table 5-26:	Proposed Environmental Outcomes – Flora and Vegetation.....	276
Table 5-27:	Summary of Terrestrial Fauna Studies.....	284
Table 5-28:	Terrestrial fauna habitats present in the Huntly and Willowdale Mine DEs .....	300
Table 5-29:	Habitat values for conservation significant fauna species known or likely to occur in the Fauna Habitat Types. ....	303

Table 5-30:	Species recorded within the Study Area during recent surveys (2023 – present) ....	310
Table 5-31:	Conservation Significant Fauna found within the the Huntly – Myara mine region Survey .....	314
Table 5-32:	Conservation Significant Fauna found within the Huntly – O’Neil mine region Survey .....	315
Table 5-33:	Conservation Significant Fauna found within the Willowdale Mine Survey.....	315
Table 5-34:	Conservation Significant Fauna found within the Willowdale Mine Survey.....	316
Table 5-35:	Conservation Significant Terrestrial Fauna within the Study Area .....	321
Table 5-36:	Black Cockatoo tree types and survey methodology .....	332
Table 5-37:	Black Cockatoo foraging habitat in the Huntly and Willowdale mine areas .....	335
Table 5-38:	Conservation Significant Aquatic Fauna within the Study Area .....	344
Table 5-39:	SRE fauna categories .....	346
Table 5-40:	SRE fauna habitats present in Mine DEs .....	348
Table 5-41:	Specimens from SRE groups recorded in the O’Neil survey area (Phoenix Environmental Sciences, 2024a) Appendix 32 .....	352
Table 5-42:	Summary of SRE fauna recorded in the O’Neil mine region by species group .....	358
Table 5-43:	Comparison of SRE survey results in the Huntly Mine region from 2021 to present surveys .....	360
Table 5-44:	Indicative estimates of direct impacts to terrestrial fauna habitats – Huntly and Willowdale Mine DEs.....	364
Table 5-45:	Indicative estimates of direct impacts to conservation significant fauna habitats – Huntly and Willowdale Mine DEs .....	366
Table 5-46:	Indicative estimates of direct impacts to SRE invertebrate fauna habitats –Mine DEs .....	370
Table 5-47:	Avoidance and minimisation of potential impacts to terrestrial fauna .....	378
Table 5-48:	Residual impacts to Terrestrial fauna – Huntly and Willowdale Mine .....	386
Table 5-49:	Significance of impacts to conservation significant species.....	391
Table 5-50:	Significant Residual Impact in the Mine DEs .....	396

## Plate Index

Plate 5-1	Bauxite deposit formation along the Darling Scarp (WSP, 2024) .....	407
Plate 5-2	Bauxite mine floor regolith (Anand & Paine, 2002) .....	414
Plate 5-3:	Inflows into Serpentine Dam as presented in Serpentine River allocation statement (Department of Water and Environmental Regulation, 2017) .....	449
Plate 5-4:	Long-term (1982-1998, 2008-September 2024) flow seasonality at Serpentine River (614035) over monthly average streamflow for 2022 (red dot) .....	449
Plate 5-5:	Long-term (1983- September 2024) flow seasonality at Big Brook (614037) over the monthly average streamflow for 2022 (red dot) .....	450
Plate 5-6:	Long-term (1974-2017) flow seasonality at South Dandalup Tributary (614037) .....	451
Plate 5-7:	Long-term salinity trend at Big Brook (614037) over the monthly average salinity for 2022 (red dot).....	454
Plate 5-8:	Long -term salinity trend at South Dandalup Tributary (614007) over the monthly average salinity for 2009 (red dot).....	455
Plate 5-9:	Water balance (2000-2020) for Serpentine Dam (top), South Dandalup Dam (middle), and Serpentine Pipehead Dam (bottom).....	466
Plate 5-10:	Simulated and measured Serpentine Dam water levels (top), simulated isotherms at dam (upper middle), river (middle) and brook (lower middle) and simulated withdrawal temperatures (bottom) .....	467
Plate 5-11:	Simulated and measured Serpentine Pipehead Dam water levels (top), simulated isotherms at dam (upper middle), river (middle) and brook (lower middle), and simulated withdrawal temperatures (bottom) .....	468
Plate 5-12:	Simulated and measured South Dandalup Dam water levels (top), simulated isotherms at dam (upper middle), river (middle) and brook (lower middle), and simulated withdrawal temperatures (bottom) .....	469
Plate 5-13:	Risk based management approach key steps .....	516
Plate 5-14:	DCMP Conceptual Drainage Controls.....	518
Plate 6-1:	Trends in plant richness from 1990 to 2022 averaged across the rehabilitation at Huntly and Willowdale .....	658
Plate 6-2:	Rehabilitation Assessed at 15 months as meeting the criteria for species richness .....	659
Plate 6-3:	Rehabilitation by area for Jarrah density and areas that met the target of 150 stems/ha from 2015 onwards .....	660
Plate 6-4:	Rehabilitation by area that met the marri density target of 150 stems/ha (2005–2014) or 200 stems/ha (1988–2004 and 2015 onwards).....	661
Plate 6-5:	Mean total Eucalypt stem densities in relation to changing completion criteria targets (Alcoa, 2022a) .....	662
Plate 6-6:	Proportion of rehabilitation meeting legume density targets .....	663
Plate 6-7:	Recovery of rehabilitation following a wildfire event (Alcoa, 2022a) .....	672
Plate 8-1:	Mitigation Hierarchy (Government of Western Australia, 2014).....	719
Plate 8-2:	Offset Proposal Framework.....	725
Plate 9-1:	Holistic impact assessment .....	739

## Appendices Index

Appendix 1	Mining and Management Program 2022 to 2026
Appendix 2	Mining and Management Program 2023–2027
Appendix 3	Alcoa Proposal Content Document: Bauxite mining on the Darling Range in the southwest of WA 2023 to 2027
Appendix 4	Environmental Scoping Document – Bauxite mining on the Darling Range in the southwest of WA – 2023 to 2027
Appendix 5	Fauna Management Plan – Huntly and Willowdale Mines
Appendix 6	Water Resources Management Plan – Huntly and Willowdale Mine
Appendix 7	Environmentally Hazardous Materials Management Plan – Huntly and Willowdale Mines
Appendix 8	Rehabilitation Management Plan and Schedule
Appendix 9	Recreational Trails and Facilities Management Plan – Huntly
Appendix 10	Recreational Trails and Facilities Management Plan – Willowdale
Appendix 11	Flora and Vegetation Management Plan – Huntly and Willowdale Mines
Appendix 12	2023–2027 MMP Stakeholder Engagement Register
Appendix 13	Environmental Offset Strategy
Appendix 14	Huntly and Willowdale Flora and Vegetation Values Summary
Appendix 15	Detailed Flora and Vegetation Survey for Huntly Mine – Myara North
Appendix 16	Detailed Flora and Vegetation Survey for Huntly Mine – Holyoake
Appendix 17	Threatened Flora and Declared Weeds – Huntly Mine Pre-clearance survey 2023
Appendix 18	Huntly Mine Additional Areas – Significant Flora Likelihood of Occurrence Assessment
Appendix 19	Alcoa Huntly-Myara Targeted Flora Survey
Appendix 20	Willowdale Targeted Flora Survey – Desktop Review
Appendix 21	Willowdale Targeted Flora Survey – Spring 2023
Appendix 22	Threatened and Priority Flora Search for Pinjarra Refinery Conveyor Project
Appendix 23	EPBC Act Protected Matters Report
Appendix 24	Likelihood of Occurrence – Conservation Significant Flora
Appendix 25	Threatened and Priority Ecological Communities Assessment
Appendix 26	Huntly Mine Targeted Fauna Survey Memo
Appendix 27	Terrestrial Fauna Desktop Assessment – Huntly and Willowdale Mines
Appendix 28	Terrestrial Fauna Assessment – O’Neil Mine
Appendix 29	Targeted Chuditch, Quokka, and Woylie Survey – Myara Region
Appendix 30	Targeted Chuditch, Quokka, and Woylie Survey – Larego Region
Appendix 31	Short-range Endemic Invertebrate Fauna Survey – Myara North and Holyoake
Appendix 32	Short-range Endemic Invertebrate Fauna Survey – O’Neil Mine

Appendix 33	Short-range Endemic Invertebrate Risk Assessment – Huntly and Willowdale Mines
Appendix 34	Willowdale Targeted Carter’s Freshwater Mussels Survey
Appendix 35	Myara – Carter’s Freshwater Mussel Targeted Survey
Appendix 36	Terrestrial Fauna Survey and Black Cockatoo Habitat Assessment for Huntly Mine – Holyoake
Appendix 37	Terrestrial Fauna Survey and Black Cockatoo Habitat Assessment for Huntly Mine – Myara North
Appendix 38	Black Cockatoo Habitat Assessment
Appendix 39	Black Cockatoo Targeted Assessment 2023 – Willowdale
Appendix 40	Technical Memo Black Cockatoo Targeted Assessment 2024
Appendix 41	Baseline Rehabilitation Monitoring (Jan 2023)
Appendix 42	Baseline Rehabilitation Monitoring (Jun 2023)
Appendix 43	McCoy Haul Road Fauna Preclearance Survey
Appendix 44	O’Neil East Targeted Woylie Assessment
Appendix 45	Forest Restoration – Zoological Society of London Article 2014
Appendix 46	Climate Change Indirectly Reduces Breeding Report
Appendix 47	Fauna Habitat Scoring Tool Report
Appendix 48	Baseline Inland Waters Assessment – Huntly and Willowdale
Appendix 49	Hydrological Setting and Understanding – Myara North and Holyoake
Appendix 50	Hydrology and Water Quality Assessment for Huntly Mine
Appendix 51	Public Drinking Water Risk Assessment
Appendix 52	Baseline Surface and Groundwater Monitoring Report – Myara North and Holyoake
Appendix 53	Aquatic Fauna Desktop Assessment Myara North and Holyoake Regions
Appendix 54	Hydrology and Bauxite Mining on the Darling Plateau
Appendix 55	Hydrological Response of the O’Neil to McCoy Mining Area
Appendix 56	On the Contribution of Groundwater to Streamflow in Laterite Catchments of the Darling Range, Southwestern Australia
Appendix 57	DCMP Summary
Appendix 58	Landscape and Visual Impact Assessment – Huntly Mine, Myara Mine
Appendix 59	Landscape and Visual Impact Assessment – Willowdale Mine, Larego Mine
Appendix 60	Landscape and Visual Impact Assessment – O’Neil East
Appendix 61	Noise Impact Assessment – O’Neil Mine
Appendix 62	Noise Impact Assessment – Willowdale Mine Larego Region
Appendix 63	Noise Impact Assessment – Myara Mine Region
Appendix 64	Alcoa Holyoake Environmental Assessments – O’Neil Baseline Noise Monitoring
Appendix 65	Pinjarra Alumina Refinery Revised Proposal Noise Assessment for Huntly Mine – Myara North and Holyoake
Appendix 66	Air Quality Impact Assessment – O’Neil Region
Appendix 67	Air Quality Impact Assessment – Myara Mine Region

- Appendix 68 Air Quality Impact Assessment – Larego Mine Region
- Appendix 69 Completion Criteria for 2016 Onwards
- Appendix 70 Jarrah Forest Rehabilitation – Peer Review
- Appendix 71 Environmental Offsets Calculator – Forest Red-tailed Black Cockatoo
- Appendix 72 Environmental Offsets Calculator – Baudin’s Black Cockatoo
- Appendix 73 Environmental Offsets Calculator – Carnaby’s Black Cockatoo
- Appendix 74 Environmental Offsets Calculator – Chuditch
- Appendix 75 Environmental Offsets Calculator – Quokka
- Appendix 76 Environmental Offsets Calculator – Woylie
- Appendix 77 WA Environmental Offsets Template
- Appendix 78 Assessment of Flora and Vegetation Values - Haul Road Options, O’Neil, Huntly Mine, WA
- Appendix 79 Assessment of Flora and Vegetation Values - O’Neil, Huntly Mine, WA.
