EXECUTIVE SUMMARY	i
1 INTRODUCTION	1-1
1.1 BACKGROUND	1-1
1.2 PURPOSE OF THIS DOCUMENT	1-1
1.2.1 Proponent Details	1-2
1.3 PROPOSAL DETAILS	1-2
1.3.1 Proposal Overview	1-2
1.4 ASSESSMENT APPROACH	1-5
1.4.1 Overview	1-5
1.4.2 Risk-Based Assessment	1-5
1.5 APPLICABLE LEGISLATION AND STANDARDS	1-8
1.5.1 Other Approvals	1-11
2 PROJECT DESCRIPTION	2-1
2.1 STATEMENT OF HARRIET POINT DREDGING PROPOSAL	2-1
2.2 JUSTIFICATION AND CONTEXT OF PROPOSAL	2-1
2.3 ALTERNATIVE OPTIONS CONSIDERED	2-2
2.4 HARRIET POINT DREDGING PROPOSAL	2-4
2.4.1 Overview	2-4
2.4.2 Capital Dredging Works	2-5
2.5 DREDGED MATERIAL MANAGEMENT	2-6
2.6 ANCILLARY REQUIREMENTS	2-8
2.6.1 Pipes and Pumps	2-8
2.6.2 Laydown Areas	2-8
2.6.3 Plant and Equipment	2-9
2.7 PROJECT SCHEDULE	2-9
3 STAKEHOLDER CONSULTATION	3-1
3.1 CONSULTATION PLAN	3-1
3.2 SOCIAL IMPACT ASSESSMENT	3-1
3.3 KEY STAKEHOLDERS	3-2
3.4 COMMUNICATION AND STAKEHOLDER ENGAGEMENT	3-3

4	EXISTING MARINE ENVIRONMENT	4-1
4.1	REGIONAL SETTING	4-1
	4.1.1 Climate	4-1
4.2	PHYSICAL MARINE ENVIRONMENT	4-2
	4.2.1 Oceanography	4-2
	4.2.2 Water Quality	4-6
	4.2.3 Coastal and Seabed Morphology	4-9
	4.2.4 Sediment Quality	4-11
	4.2.5 Acid Sulphate Soils	4-17
4.3	BIOLOGICAL MARINE ENVIRONMENT	4-21
	4.3.1 Marine Habitats	4-21
	4.3.2 Marine Habitats within the Project Area	4-23
	4.3.3 Marine Fauna	4-32
	4.3.4 Marine Pest Species	4-36
4.4	ENVIRONMENTAL VALUES AND ENVIRONMENTAL QUALITY OBJECTIVES	4-38
5	EXISTING TERRESTRIAL ENVIRONMENT	5-1
5.1	EXISTING STUDIES	5-1
5.2	PHYSICAL	5-1
	5.2.1 Geology and Soils	5-1
	5.2.2 Topography and Landforms	5-1
	5.2.3 Surface Hydrology	5-2
	5.2.4 Hydrogeology	5-2
5.3	BIOLOGICAL	5-3
	5.3.1 Vegetation	5-3
	5.3.2 Overview of Flora	5-4
	5.3.3 Introduced Flora (Weeds)	5-5
	5.3.4 Fauna Habitat Types	5-6
	5.3.5 Fauna Species	5-6
6	REGIONAL & SOCIAL ENVIRONMENT	6-1
6.1	REGIONAL CONTEXT	6-1
6.2	PORT HEDLAND OPERATIONS	6-1
	6.2.1 Port Hedland Port Authority	6-1
	6.2.2 Fortescue Metals Group	6-1
6.3	PORT HEDLAND REGIONAL PLANS	6-1

REFERRAL DOCUMENT

6.3.1	Town of Port Hedland Town Planning Scheme No. 5	6-2
6.3.2	Port Hedland Landuse Master Plan	6-2
6.4	SOCIAL SETTING	6-2
6.4.1	Communities	6-2
6.4.2	Recreation and Tourism	6-2
6.5	INFRASTRUCTURE AND TRANSPORT	6-2
6.6	ECONOMIC SETTING	6-3
6.7	HERITAGE	6-3
6.7.1	Previous Surveys in the Vicinity	6-3
6.7.2	Heritage Surveys in the Project Area	6-3
6.7.3	European	6-3
6.8	VISUAL AMENITY AND LANDSCAPE CHARACTER	6-4
6.8.1	Overview	6-4
6.8.2	Surrounding Area	6-4
6.9	AIR QUALITY	6-4
6.10	WATER USE	6-5
6.11	NOISE	6-5
7	IMPACT ASSESSMENT	7-1
7.1	RISK ASSESSMENT METHODOLOGY	7-1
7.2	BACKGROUND	7-1
7.3	KEY & OTHER FACTORS – RISK ASSESSMENT PROCESS	7-2
8	KEY FACTORS IMPACTS AND MANAGEMENT	8-1
8.1	MARINE WATER QUALITY	8-1
8.1.1	Overview	8-1
8.1.2	EPA Objective	8-1
8.1.3	Policy and Standards	8-2
8.1.4	Sediment Plume Modelling	8-2
8.1.5	Potential Impacts	8-4
8.1.6	Management of Impacts	8-17
8.1.7	Outcome	8-21
8.2	ACID SULPHATE SOILS	8-22
8.2.1	Overview	8-22
8.2.2	EPA Objective	8-22
8.2.3	Policy and Standards	8-22
8.2.4	Potential Impacts	8-22
8.2.5	Management of Impacts	8-22

**REFERRAL DOCUMENT**

8.2.6	Outcome	8-23
8.3	MARINE HABITAT (MANGROVES)	8-25
8.3.1	Overview	8-25
8.3.2	EPA Objective	8-25
8.3.3	Policy and Standards	8-25
8.3.4	Potential Impacts	8-25
8.3.5	Management of Impacts	8-27
8.3.6	Outcome	8-28
8.4	LAND USE	8-29
8.4.1	Overview	8-29
8.4.2	EPA Objective	8-29
8.4.3	Policy and Standards	8-29
8.4.4	Potential Impacts	8-29
8.4.5	Management of Impacts	8-30
8.4.6	Outcome	8-31
9	OTHER RELEVANT FACTORS IMPACTS AND MANAGEMENT	9-1
9.1	OTHER MARINE HABITAT	9-1
9.1.1	Overview	9-1
9.1.2	EPA Objective	9-2
9.1.3	Policy and Standards	9-2
9.1.4	Potential Impacts	9-2
9.1.5	Management of Impacts	9-3
9.1.6	Outcome	9-3
9.2	MARINE FAUNA	9-4
9.2.1	Overview	9-4
9.2.2	EPA Objective	9-4
9.2.3	Policy and Standards	9-4
9.2.4	Potential Impacts	9-5
9.2.5	Management of Impacts	9-7
9.2.6	Outcome	9-9
9.3	MARINE PEST SPECIES	9-10
9.3.1	Overview	9-10
9.3.2	EPA Objective	9-10
9.3.3	Policy and Standards	9-10
9.3.4	Potential Impacts	9-10
9.3.5	Management of Impacts	9-11
9.3.6	Outcome	9-12

**REFERRAL DOCUMENT**

9.4	COASTAL PROCESSES	9-13
9.4.1	Overview	9-13
9.4.2	EPA Objective	9-13
9.4.3	Policy and Standards	9-13
9.4.4	Potential impacts	9-13
9.4.5	Management of Impacts	9-14
9.4.6	Outcome	9-14
9.5	TERRESTRIAL FLORA AND FAUNA	9-15
9.5.1	Overview	9-15
9.5.2	EPA Objective	9-15
9.5.3	Policy and Standards	9-15
9.5.4	Potential impacts	9-15
9.5.5	Management of Impacts	9-20
9.5.6	Outcome	9-20
9.6	CONSTRUCTION NOISE	9-21
9.6.1	Overview	9-21
9.6.2	EPA Objective	9-21
9.6.3	Policy and Standards	9-21
9.6.4	Potential Impacts	9-21
9.6.5	Management of Impacts	9-22
9.6.6	Outcome	9-23
9.7	VISUAL AMENITY	9-23
9.7.1	Overview	9-23
9.7.2	EPA Objective	9-23
9.7.3	Policy and Standards	9-23
9.7.4	Potential Impacts	9-23
9.7.5	Management of Impacts	9-26
9.7.6	Outcome	9-26
9.8	INDIGENOUS HERITAGE	9-26
9.8.1	Overview	9-26
9.8.2	EPA Objective	9-26
9.8.3	Policy and Standards	9-26
9.8.4	Potential Impacts	9-27
9.8.5	Management of Impacts	9-27
9.8.6	Outcome	9-27
9.9	RECREATION	9-29
9.9.1	Overview	9-29
9.9.2	EPA Objective	9-29

**REFERRAL DOCUMENT**

9.9.3	Policy and Standards	9-29
9.9.4	Potential Impacts	9-29
9.9.5	Management of Impacts	9-29
9.9.6	Outcome	9-30
9.10	CONSTRUCTION DUST	9-31
9.10.1	Overview	9-31
9.10.2	EPA Objective	9-31
9.10.3	Policy and Standards	9-31
9.10.4	Potential Impacts	9-31
9.10.5	Management of Impacts	9-31
9.10.6	Outcome	9-32
9.11	WASTE MANAGEMENT (SOLID AND LIQUID)	9-33
9.11.1	Overview	9-33
9.11.2	EPA Objective	9-33
9.11.3	Policy and Standards	9-33
9.11.4	Potential Impacts	9-33
9.11.5	Management of Impacts	9-33
9.11.6	Outcome	9-34
9.12	HYDROCARBONS AND HAZARDOUS WASTES	9-34
9.12.1	Overview	9-34
9.12.2	EPA Objective	9-34
9.12.3	Policy and Standards	9-34
9.12.4	Potential Impacts	9-35
9.12.5	Management of Impacts	9-35
9.12.6	Outcome	9-35
10	ENVIRONMENTAL MANAGEMENT COMMITMENTS AND CONCLUSIONS	10-1
10.1	ENVIRONMENTAL MANAGEMENT COMMITMENTS	10-1
10.2	CONCLUSIONS	10-4
11	ABBREVIATIONS & REFERENCES	11-1
11.1	GLOSSARY, ACRONYMS AND ABBREVIATIONS	11-1
11.2	REFERENCES	11-4

APPENDICES

Appendix C – Dredging Management Plan

Appendix D – Acid Sulphate Soil Management Plan (Appendix A – refer to CD)

Appendix E – Mangrove Management Plan

Appendix F – Land Use Management Plan

Appendices A, B and G to N – refer to CD

BHPBIO Response to Agency Comments – refer to CD

List of Tables

Table ES.1 – Project Key Characteristics	i
Table ES.2 – Environmental Factors & Inherent Risk	ii
Table ES.3 – Potential Environmental Impacts	iv
Table 1.1 – Principles of Environmental Protection	1-9
Table 2.1 – Project Key Characteristics	2-1
Table 2.2 – Example of Option Assessment Environmental and Socio-economic Criteria	2-3
Table 2.3 – Volume of Material to be Dredged	2-5
Table 2.4 – Maximum Bulked Volume of Material to be placed in each DMMA	2-6
Table 2.5 - Location of Port Hedland Spoil Ground 'I'	2-7
Table 3.1 – Summary of Key Queries and Comments Raised During Consultation with State and Local Government Agencies, Non Government Organisations and Other Stakeholders (To date).	3-5
Table 4.1 – Maintenance and capital dredging of Port Hedland Harbour between 1986 and 2007	4-3
Table 4.2 – Baseline water quality monitoring in South West Creek (URS 2008)	4-7
Table 4.3 – Summary of Turbidity (NTU) and Total Suspended Solids (TSS) data from Previous Studies within Port Hedland Inner Harbour	4-8
Table 4.4 – Concentrations of Metals Recorded in the Inner and Outer Harbour Waters of Port Hedland (SKM 2008b)	4-9
Table 4.5 – Summary of Existing Sediment Chemistry Investigations in Port Hedland Harbour	4-11
Table 4.6 – Summary of Diver Core Unconsolidated Sediment Chemistry Investigations in Harriet Point Dredge Footprint.	4-13
Table 4.7 – Summary of Geotechnical Sediment Chemistry Investigations in Harriet Point Dredge Footprint.	4-15
Table 4.8 – Elutriate Analysis for Geotechnical Sediment Samples Collected from Harriet Point	4-16
Table 4.9 – Leachate Analyses of Geotechnical Cores using Acetic Acid Leachate and DI Water Leachate Preparation.	4-17
Table 4.10 – Generalised Sub-Surface Profile	4-20
Table 4.11 – Reptile Species identified in the Environment Protection and Biodiversity Conservation Act (EPBC Act) Protected Matters Search Tool to occur within the Port Hedland Harbour and the Route to Spoil Ground 'I'	4-32
Table 4.12 – Marine Mammals Identified by the EPBC Act Protected Matters Search Tool to occur within the Port Hedland Harbour and the Path to Spoil Ground 'I'	4-34

REFERRAL DOCUMENT

Table 4.13 – Dominant Fish Species Captured in Habitats at Sites within Dampier (Robertson & Alongi 1992)	4-35
Table 4.14 – Introduced Marine Species within Port Hedland (Huisman et al. (in press) 2008)	4-37
Table 4.15 – Environmental Values and Environmental Quality Objectives	4-38
Table 4.16 – Levels of Ecological Protection Linked to the EQO for ‘Maintenance of Ecosystem Integrity’	4-38
Table 5.1 – Distrubution of Land Systems Within the Potential DMMA.	5-2
Table 6.1 – Dust and Water Use Performance Targets	6-5
Table 7.1 – Severity Factor	7-2
Table 7.2 – Likelihood Factor	7-3
Table 7.3 – Residual risk rating classification	7-3
Table 8.1 – Discharge Water Reactive Management Trigger Levels	8-21
Table 8.2 – Summary of Potential Impacts Resulting from a Reduction in Water Quality, Associated Management Measures and the Resulting Residual Risk	8-21
Table 8.3 – Summary of Potential Impacts from ASS for the Project and the Associated Management Measures, Severity, Likelihood and Residual Risk	8-24
Table 8.4 – Cumulative Loss of Mangroves, as Defined within the Port Hedland Industrial Area Management Unit	8-26
Table 8.5 – Summary of Potential Impacts to Mangroves for the Project and the Associated Management Measure, Severity, Likelihood and Residual Risk	8-28
Table 8.6 – Summary of Potential Impacts Resulting from Land Use Associated with the DMMA	8-31
Table 9.1 – Summary of Potential Impacts to Other Marine Habitat and the Associated Management Measures, Severity, Likelihood and Residual Risk	9-4
Table 9.2 – Summary of Potential Impacts to Marine Fauna and the Associated Management Measures, Severity, Likelihood and Residual Risk	9-9
Table 9.3 – Summary of Potential Impacts for Marine Pest Species and the Associated Management Measures, Severity, Likelihood and Residual Risk	9-13
Table 9.4 – Summary of Potential Impacts for Coastal Processes and the Associated Management Measures, Severity, Likelihood and Residual Risk	9-14
Table 9.5 – Summary of Potential Impacts to Terrestrial Flora and Fauna and the Associated Management Measures, Severity, Likelihood and Residual Risk	9-21

**REFERRAL DOCUMENT**

Table 9.6 –	Summary of Noise Levels (LA10 in dB(A)) as a Result of Dredging and Dredge Material Management	9-22
Table 9.7 –	Summary of Potential Impacts Related to Construction Noise and Associated Management Measures, Severity, Likelihood and Residual Risk	9-23
Table 9.8 –	Summary of Potential Impacts to Visual Amenity Values and the Associated Management Measures, Severity, Likelihood and Residual Risk	9-26
Table 9.9 –	Summary of Potential Impacts and Management for Indigenous Heritage, and the Associated Severity, Likelihood and Residual Risk	9-28
Table 9.10 –	Summary of Potential Impacts and Management for Recreation, and the Associated Severity, Likelihood and Residual Risk	9-30
Table 9.11 –	Summary of Potential Impacts and Management of Construction Dust, and the Associated Severity, Likelihood and Residual Risk	9-32
Table 9.12 –	Summary of Potential Impacts and Management of Solid and Liquid Waste, and the Associated Severity, Likelihood and Residual Risk	9-34
Table 9.13 –	Summary of Potential Impacts and Management of Hydrocarbons and Hazardous Materials, and the Associated Severity, Likelihood and Residual Risk.	9-36
