Dear Rob,

YSRC Support for Perpetual Resources Limited - Beharra Silica Sand Project

Further to ongoing discussions between Yamatji Southern Regional Corporation Ltd (YSRC), its related entities, and Perpetual Resources Limited, we wish to provide a letter of support for your Beharra Silica Sand Project.

This letter of support is based on a commitment from both parties to work together to implement an Indigenous Engagement Strategy that will define the requirements for enabling Indigenous contracting and direct employment opportunities.

We also acknowledge the commercial relationship between the two companies in regard to the Water Leasing of approximately 560 million litres per annum of water within the Eneabba Plains Water Reserve from the Corporation to Perpetual Resources.

In addition, we note that both companies have recently entered into the Yamatji Proponent Standard Heritage Agreement enabling any additional heritage processes required for the project to proceed.

We look forward to your exciting project proceeding and working closely with you in the future.

Kind Regards,

Ross Councillor
Chairperson
