Dear Sir,

RESPONSE TO NOTICE REQUIRING FURTHER INFORMATION

Fimiston Gold Mine Operations Extension (Stage 3) and Mine Closure Planning: Revised Proposal

Please find attached KCGM's response to the Notice Requiring Further Information under Section 38F(1) and (2) of the *Environmental Protection Act 1986*.

KCGM have actioned the items requested in the Notice and have provided a complete replacement package. KCGM requests that the initial submission be replaced in its entirety with this package.

The package includes:

- A current template referral form
- A proposal content document
- Corrected clearing information for the Environmental Noise Bund
- Credible Greenhouse Gas Emissions estimates
- Reviewed and amended spatial data in GDA 2020/MGA51
- Corrected clearing information for the Environmental Noise Bund
- Confirmation of IBSA data packages submission, by way of the submission number.

KCGM would appreciate the opportunity to engage with the EPA Service Unit regarding a potential inconsistency between the disturbance data defined in the MS782 Amendments and spatial data.

Sincerely

Janine Cameron
Approvals and Closure Specialist, KCGM
